LEHI, UTAH, THURSDAY, OCTOBER 26 1922

No. 13

NEW SUPT. OF ALPINE SCHOOL DISTRICT CHOSEN

ELMER MILLER, FORMER PRINCIPAL OF LEHI HIGH SCHOOL, THE MAN—JAMES H. WALKER RESIGNS TO ACCEPT POSITION WITH McMILLAN BOOK SUPPLY COMPANY. — CHANGE EFFECTIVE NOVEMBER 1ST.

Elmer Miller, former principal of the Lehi High School, was chosen as superintendent of the Alpine School District last evening and has accepted the position. James H. Walker, present superintendent, presented his resignation a week ago Tuesday which has been accepted and is effective November 1st this year.

The final discussion on the whole change came last evening following a week's studying of the matter by the board. The three principals, D. R. Mitchell, P. M. Neilson and Mr. Gourley of Lehi, American Fork and Pleasant Grove respectively, were named and considered as men for the position. The board members of the various towns held strictly to their man and after two days, yesterday and Wednesday, of parleying, without changing a single vote, it was decided that they would have to go out of the district for a superintendent.

With this point settled they were not long in deciding on Elmer Miller, now principal of Davis county high school. Mr. Miller was advised of the decision and instantly

accepted, stating that he would be down Saturday.

Mr. Miller is well known in Lehi and other parts of the district. His ability has already been proven here and he will come back to a big circle of friends made while principal in the Lehi High.

Superintendent Walker's resignation came as a surprise both to the board and the general public. He has very successfully handled the affairs of the office during the many years he has held the position. His many school and public friends wish him success in his new position.

Injured When "Bug" Turns Over

Art Beck, Joseph Hackett and Donald Wilcox received injuries Wednesday evening when the Ford "Bug" they were in turned over twice on the last turn coming out of American Fork on the State road. Beck received a cut over the eye, an ear nearly cut off and a badly injured arm. Hackett sustained a broken nose and minor bruises. Wilcox escaped with only a bruised hip and torn trousers.

The young men were returning to their homes here from the dance and it appears were making "too much time" on the turns. It was said they were traveling 30 miles an hour. The car body was badly damaged. A passing motorist brought them to the Lehi hospital for treatment.

LITTLE INTEREST IN ELECTION THUS FAR

If the spirit manifested thus far in the election continues to November 7th, election day, the judges will have few ballots to count. The people are showing very little interest in registering, rallies or the general political discussion. Some of the politicians say it is the "deadest" campaign in ten years.

As proof of the above statement one has only to visit the registration offices and ask about how registration is going. Further, less than 100 people were out to hear Senator King, barely seventy attended the Republican rally with Nephi L. Morris as speaker and not an excessive number of Lehi people took the trouble to go to American Fork Tuesday to see and hear William Jennings Bryan, national character.

Other rallies coming up will demonstrate whether interest will increase. Friday Hon. E. O. Leatherwood will discuss the campaign issues here at the Auditorium. An especially attractive musical program is arranged for the occasion together with talks by county candidates.

The last registration day is next Tuesday, October 31st when much work will have to be done to get in the many names not on the lists.

Securing Descriptions On Delinquent Side-Walk Property

Lehi City has appointed Attorney William Asher to secure the description from County records of all real property upon which the sidewalk tax is delinquent. The work commenced Tuesday.

This description is necessary in sending out the final notices to property owners who have failed to keep up their special sidewalk taxes. These taxes are for cement sidewalks laid in 1913. The payment plan was ten equal payments, the last of which comes due November 15, 1922. This is for district number one which includes the big part of the City sidewalks.

There are a large majority of the citizens, who have not kept up these payments and a few who failed to pay anything. The final and last payment next month has grown, through the addition of interest, to nearly double the original bill. The collection will have to be made on or before the 15th of November or the property, after advertising, sold to satisfy the account.

Citizens should check up on their property and make arrangements to take care of the payment before the sale takes place as this will add additional expense to the item. The City treasurer is accepting payments.

DOG SNAPS BOYS EAR OFF CLEAN

To have your ear taken off as clean as if shaved off is an unusual occurrence but just such an accident befell Boyd, 6-year-old son of Mr. and Mrs. Thomas Adamson, of Highland. The incident occurred Friday and the family dog was the direct cause.

The boy was playing with the animal when it snapped at him catching the ear in its teeth. The ear was pulled off so close to the head that the doctor had trouble in getting skin enough to sew the wound up. The ear could not be found and it was presumed that the dog swallowed it.

Lady Republicans Hear Mrs. Leatherwood

The Ladies Republican Club held a successful meeting yesterday afternoon in the Memorial building, Mrs. Leatherwood of Washington D. C., was the principal speaker. Light refreshments and a short program was enjoyed by those present.

Anti-"Mormon" Newspaper Reports

The item below from an English paper is a sample of the publicity that is being used against the Latter-day Saint Missionaries in various parts of England. This gives us an idea of the sentiment that is created against Utah people and the things our missionaries have to overcome.

NO ESCAPE FROM UTAH

Welsh Girl's Letter to a Former Employer.

Cardiff, Saturday.
Interviewed in Cardiff today, Mrs. Lulu Loveland Shepard, who has opened an anti-Mormon campaign in Wales, said:

"Hundreds of Welsh girls have gone into Mormonism, as you would realize if you were able to see the great Welsh choir which is responsible for the music, along with a Welsh organist, at one of the Mormon temples in Salt Lake City.

"Only the day after my arrival in Cardiff I met a lady who had lost two girl relatives, both of whom have found their way to Salt Lake City. Mormon missionaries are working vigorously throughout the Principality, and tons of Mormon literature is being distributed daily.

"I mean to try to arouse the churches and the people of this country to the grave peril to which girls are exposed by revealing the character of the Mormon faith and the practices which are carried on under its cloak."

What life in Utah is really like for the deluded girls who go there may be gathered from this extract from a letter which a Welsh girl now in that State has sent to her mistress, the married daughter of a lady well known in Glamorgan.

"My sister," writes the Welsh girl, "is the queen wife of a lecturer. She is one of six, but she is better off than the other five because their children are all liable to be called upon to do all the mental things for her. She wants me to get married to one of their men, but I shan't. I should like to escape from this place, but owing to their spies vigilance there is no hope of escape from here except by death."

To-day (Sunday) Mrs. Shepard is acquainting the men of Newport of the perils assailing Welsh girls, the meeting being presided over by the Archdeacon of Monmouth.

Familiar Remark.
Our second child had red hair, and whenever we took him out someone would remark about it. When the baby was two years old we were giving a dinner party and while waiting for the guests to arrive I was putting on the last touches and brushed the baby's hair. He looked up at me and said: "I pose de lady will say, 'Wher' did your baby det his red hair?"—Exchange.

Resourceful Vocabulary.
"The river Parana," declares the prospectus of a real estate agent in Parana, Brazil, "is the most watery in the state, one of the most extended in the world, it is navigable until to this state for ships of great profundness; it is also sufficiently fishful." This same cheerful chap it is who further asseverates that "the vegetable reign is excessively represented in resinous, oily and gummy plants."

SUGAR MAKING COMMENCES AT THE LEHI FACTORY

ONLY SIXTY DAY CAMPAIGN THIS YEAR. — EMPLOYEES NUMBER 300.

Sugar making at the Lehi factory commenced Tuesday of this week. Beet cutting was started at midnight on Monday. At this writing the mill had not reached capacity but a day or two should see the "mother factory" grinding out the usual sugar tonnage.

The mill was scheduled to commence on the 16th but the start was held up a week on a new pan for the Pan Room. The new equipment should have been out and installed before the campaign commenced but railroad trouble held up the material so long that it did not reach here until the date for starting. The unit is now in place but will not go into use for some time yet. However, with its installation the remainder of the pans could be used and the run commenced.

The campaign this year will last only about sixty days, superintendent Gardner said yesterday when interviewed. This is a considerable shorter run than is customary at this factory and is due to the small acreage of beets planted this season. Some 70,000 tons of beets will be cut by this unit. Only 40,000 tons of these were raised in this district, however. The other 30,000 tons will be shipped here from the east side of Salt Lake valley and the Payson district.

The factory is operating on a three shift plan again this year. Some

300 men are employed at the factory and cutting stations. There was no trouble experienced in securing plenty of help.

Charles Earl Taken To Hospital Again

Charles Earl, who was seriously injured last August in a mine in American Fork canyon, was taken to the L. D. S. hospital Thursday for further treatment. It is expected that he will be confined there for about two months.

It is said it will be necessary to re-break his right foot and set it, remove some bone from the left foot and gradually force two vertebrae of his back into place. Mr. Earl has been out of the American Fork hospital about a month.

Local Sportsmen Get Deer

Thus far this year only two sportsmen of this vicinity have reported killing a deer. A number went out but the good weather and lack of snow hindered the hunters.

M. S. Lott, who with Dennis Giles went down into the Panguitch country, bagged a big five point buck. It weighed 275 pounds and is one of the biggest killed this season. They left here Friday, October 13th, and returned last Thursday.

O. A. Shide was also successful in getting his deer this season. He hunted in Wyoming and returned with a 268 pound buck.

A Warm Room To Dress In

- No more cold trips to the basement.
- No more dressing in a cold room.
- No more fires to build.
- No more big fuel bills.

COLE'S ORIGINAL HOT BLAST HEATER

is absolutely air-tight and will stay air-tight. That is why it is guaranteed to hold fire for 36 hours without attention.

And remember, every Cole's Hot Blast Heater is guaranteed to consume one-third less fuel than any underdraft stove of the same size. This means money in your pocket.

Let us tell you more about this remarkable heater.
